

One Safe Way

To provide a safe and injury free environment promoting a healthy life for all of our employees and those that may also be affected by our actions.

“One Safe Way” is the Group vision for the way in which we all work.

- This means working together towards a common goal protecting the safety and health of everyone, this includes contractors, visitors and member of the public
- Everyone has the right to go home safely at the end of the working day
- We empower everyone to speak up if they feel that their safety or health is being compromised
- Individual good safety practice will make a difference.

Justin Galliford,
Chief Executive Officer
